Account takeover

3,5 mia.

Dollartabet amerikanske brugere havde som følge af account takeover i 2019.

Vores ideologi

Customer Experience

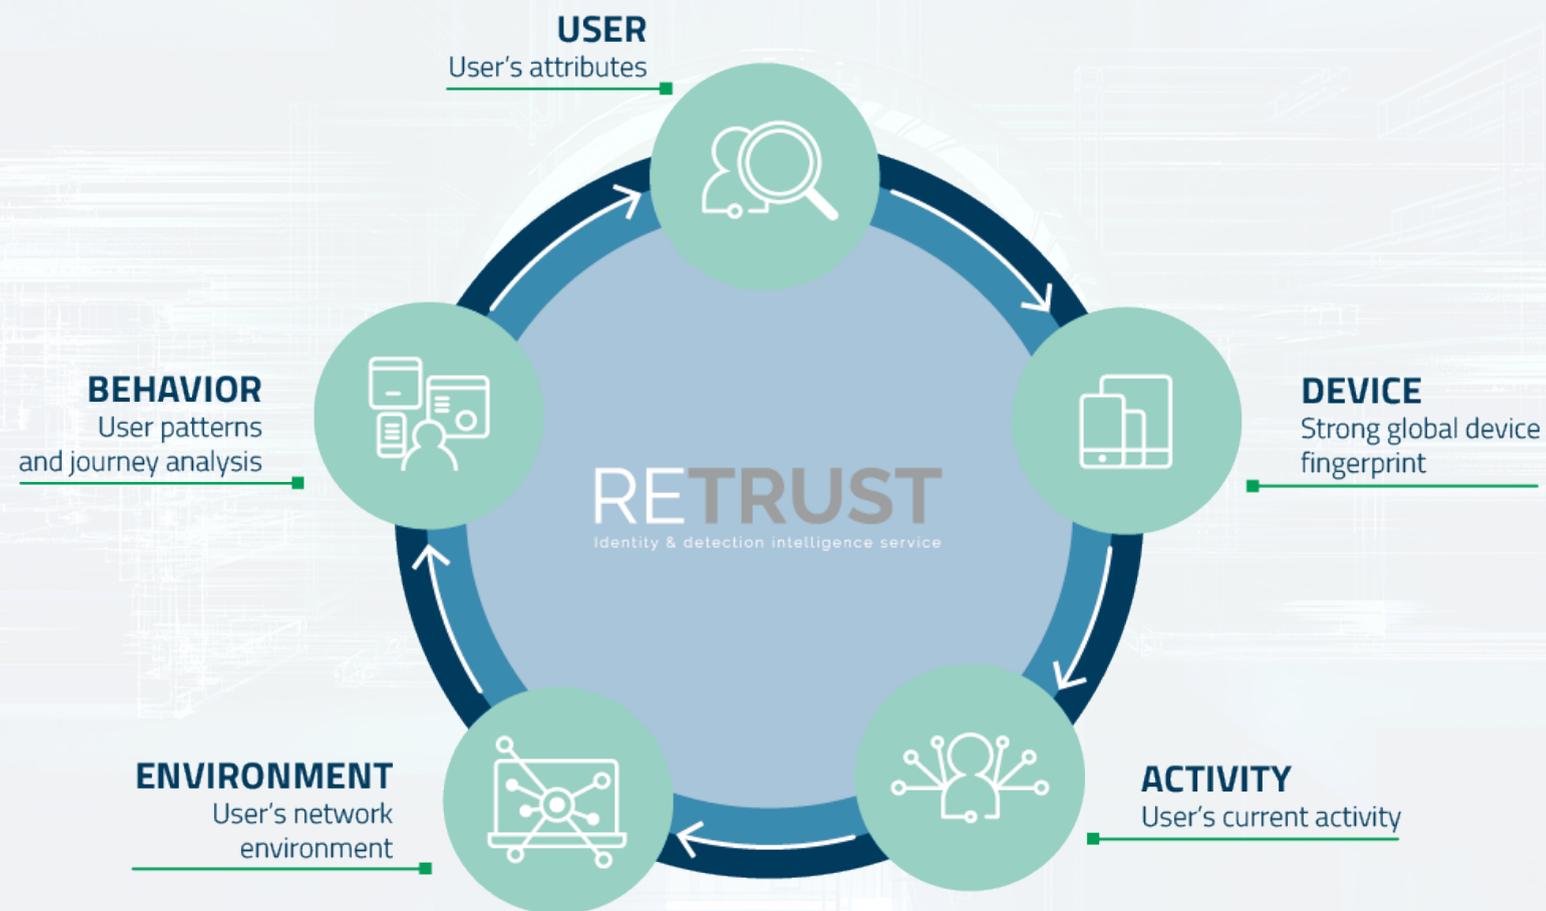

Digital Trust

Fraud Prevention

Hvordan virker ReTrust?

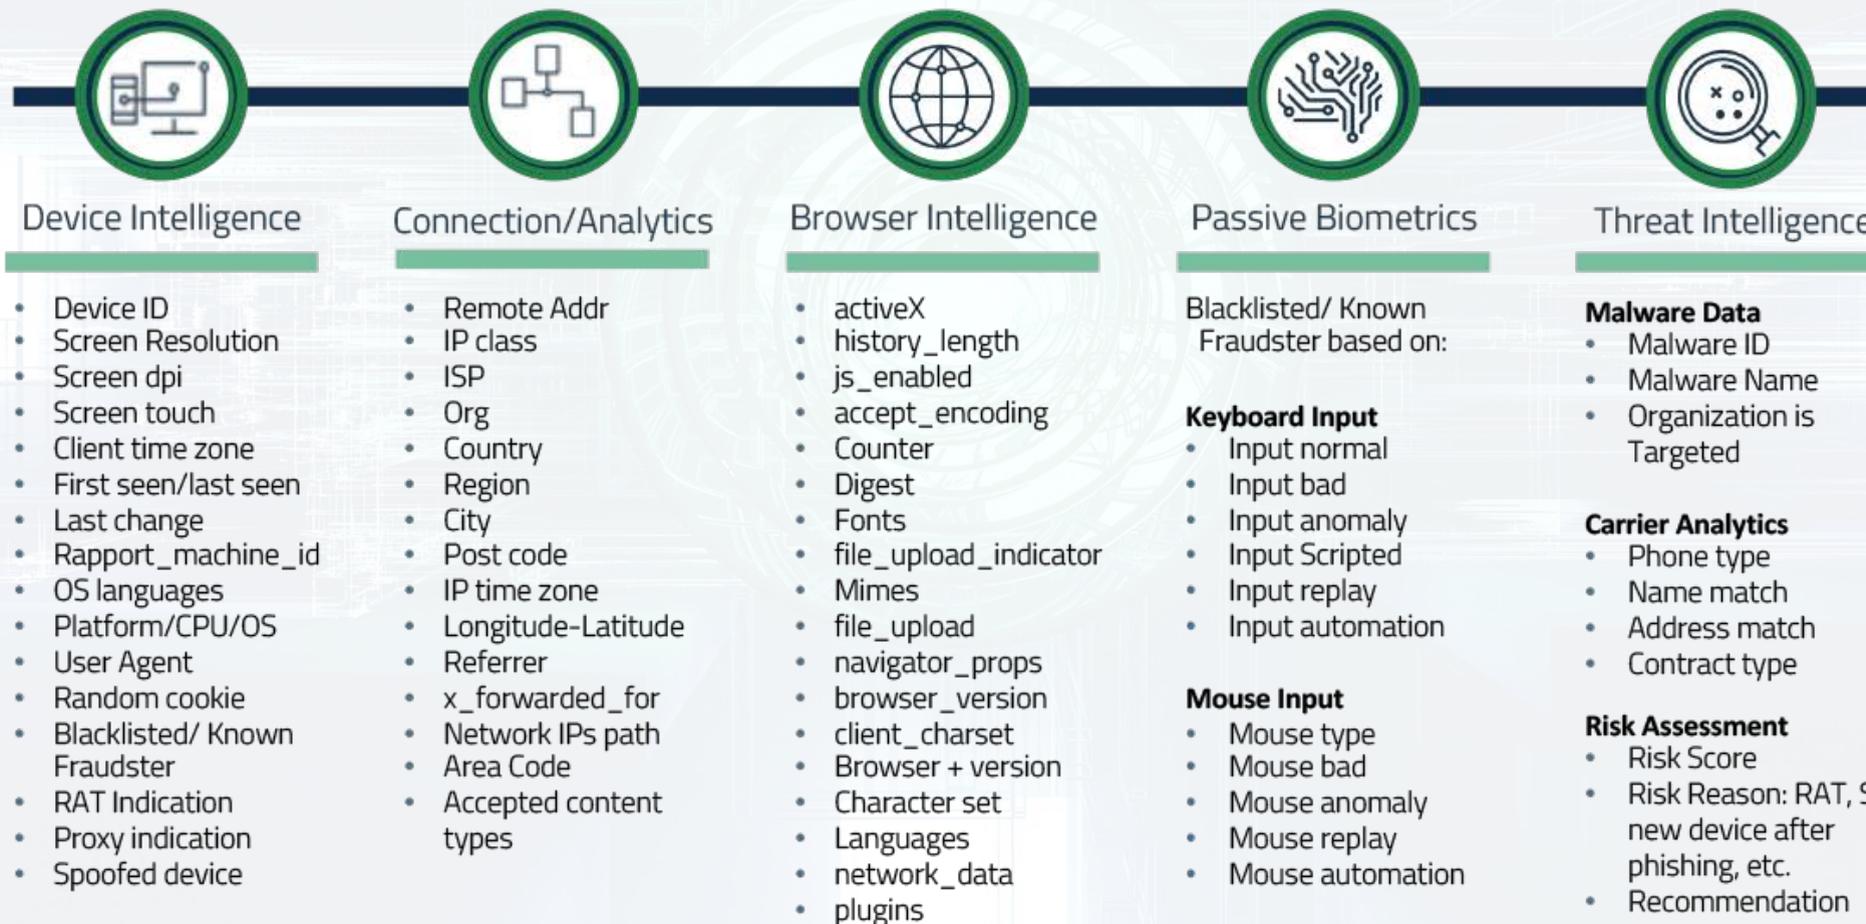

ReTrust is a digital trust tool that uses 5 different technologies to separate the fraudulent sessions from the true sessions.

The system does this in real time and without impacting the online experience for the user.

Hvilke data analyserer ReTrust?

Pinpoint data to be consumed by the application or third party risk engine

Trusteer Intelligence

50,000,000,000+

Over 50B web hits per month

300,000,000,000,000+
